

VISION

Provide our Nation the best value solution for modification, repair and overhaul of rotary wing components and aircraft; posture the depot to meet our Nation's future requirements in peacetime and at war.

VALUES

Commitment - Customer satisfaction is our core competency.

Loyalty - To our customers and to each other.

Accountability - Personal ownership of our job responsibilities – because our reputation hangs on every single component and aircraft we deliver.

Integrity - Our actions match our values – we do what we say.

Respect - Sustain a workplace and climate that fosters dignity and respect for our entire workforce.

Selfless service - We are uniformed and civil servants to our nation – our service is a key factor in National Security – we serve so that others are safe.

Teamwork - Our mission is achieved by working together to meet the end state.

MISSION

Return rotary wing aircraft and components to the Department of Defense and other government organizations with uncompromising quality, at the lowest possible cost, in the shortest amount of time possible.

Safeguard the workforce. Integrate safety and risk mitigation into every aspect of depot operations.

Support the Army's accident investigation processes worldwide with materials expertise and laboratory analysis.

Assess, evaluate and repair forward-deployed aircraft and components worldwide. Provide on-site depot capacity to the U.S. Army Aviation Center of Excellence at Fort Rucker.

Support Active, Reserve and National Guard aviation maintenance skill development with hands-on training at the depot.

END STATE

Customers satisfied - demands met on time - carry-over goal met. Zero accident related loss of life, limb or eyesight with all OSHA safety goals met. Depot is right sized and right skilled to meet customer demands in FY14 and immediate out years.
